  - **Framworks:** Odoo Framework (basic Python, XML customization, and module structure).
  - **Development Tools:** PyCharm, Git.
  - **Management Tools:** Notion, Jira, Azure DevOps.
- 

## WORK EXPERIENCE

### System Implementer

Nama Soft - Local ERP

Jan 2023 - Jan 2025

- Initially joined as a technical support specialist and progressively expanded my role by engaging in ERP implementation tasks.
- Developed a solid understanding of core business processes such as accounting, sales, pos, inventory, and purchasing through hands-on experience.
- Provided technical assistance, resolved system issues, and conducted user training sessions.
- Supported clients in optimizing ERP functionalities and enhancing business processes.
- Designed and implemented SQL-based reports in JasperReports to extract, transform, and visualize ERP data for various business departments.

My experience in this role provided me with a strong foundation in both business processes and computer science principles, enabling me to understand how systems operate at a deeper level. This knowledge helped me troubleshoot complex issues and effectively leverage AI tools by asking the right questions.

### Book keeper & Odoo Techno Functional

SIJILTECH - Odoo

FEB 2025 - Present

- This position represented a major shift in my career, moving from local systems to a global ERP environment (Odoo), which expanded my technical and business capabilities.
- I worked as a bookkeeper while also participating in several Odoo implementation projects. This experience strengthened my accounting skills, enhanced my attention to detail, and improved my ability to analyze financial data accurately.
- It also deepened my understanding of the Saudi market and business regulations, allowing me to align system configurations with local accounting standards and client needs.
- I gradually started exploring Odoo development, gaining the ability to implement system customizations that are typically done through Studio or automation settings – but directly through code. This helped me better understand Odoo's technical structure and enhanced my ability to deliver tailored solutions efficiently.

## ACCOUNTING SKILLS

- Bookkeeping
  - Tax Preparation
  - Financial Reporting
  - Reconciliation
  - Cash Flow Management
- 

## CURRENTLY LEARNING / IN PROGRESS

- Odoo API Integration.
  - JavaScript for OWL and Odoo front-end development.
  - Linux basics.
  - Pandas library for data analysis and manipulation.
- 

## EDUCATION

Menoufia University

Sep 2018 - Jun 2022

B.Com in Accounting (English Section)
